

24 April 1967

Dr. H. Orin Halvorson
Department of Biochemistry
University of Minnesota
St. Paul, Minnesota 55101

Dear Dr. Halvorson:

I will be available on either 17 May or 18 May.

The term "alien" diseases bothers me somewhat, but I must confess I do not have a good alternative other than "diseases of military importance."

By this time I hope you have received my rewrite of the sections of the report.

Yours truly,

STA
